---

## PROFESSIONAL SUMMARY

---

Computer Science graduate from Elon University with Dean's List recognition, bilingual fluency in English and Spanish, trilingual proficiency in French, and hands-on experience in IT support, SaaS operations, and full-stack development. Proven ability to troubleshoot complex technical issues, deploy systems, and train end users across Windows and macOS environments. Holds multiple Google cybersecurity certifications and is actively expanding expertise in data analytics and AI-driven tooling.

## TECHNICAL SKILLS

---

**Languages:** Python, Java, C#, HTML, CSS, PHP, SQL

**Platforms & Tools:** Git, GitHub, Visual Studio, Sublime Text, Unity, Jobber CRM

**Operating Systems:** Windows, macOS

**Cybersecurity:** Security risk frameworks, threat identification, incident response fundamentals

**Data & Analytics:** Microsoft Excel, SQL databases

**Core Competencies:** Technical support, device deployment, SaaS administration, end-user training, documentation

## PROFESSIONAL EXPERIENCE

---

**United Water Restoration Group** | Pompano Beach, FL | Sep 2025 - Dec 2025

### IT & Operations Intern

- Delivered Tier 1-2 technical support to office staff, resolving hardware, software, and printer issues across Windows and macOS systems.
- Configured, provisioned, and deployed employee devices, streamlining onboarding and reducing setup time.
- Identified recurring system failures through root-cause analysis and helped prevent repeat disruptions.
- Built and maintained an internal knowledge base of common issues and solutions.

**Air Force HVAC** | Remote | Oct 2025 - Dec 2025

### Accounts Receivable & Operations Intern

- Administered and optimized Jobber CRM workflows for invoicing, payment tracking, and automated client communications.
- Designed and delivered SaaS platform training sessions for field technicians, improving system adoption and consistency.
- Monitored accounts receivable pipelines and executed targeted client follow-ups to reduce overdue balances.
- Analyzed and improved internal operational processes for day-to-day business efficiency.

## PROJECTS

---

**3D Game: Enemy AI & Mission Logic** | Unity, C#

- Developed a playable 3D game featuring enemy AI pathfinding, collectibles, and mission completion systems.
- Applied object-oriented design patterns and real-time physics to build responsive player interactions.

**Class Scheduling Web Application** | HTML, CSS, PHP, SQL

- Built a full-stack responsive web app enabling students to plan course schedules based on availability and prerequisites.
- Engineered backend scheduling logic in PHP with a SQL database and designed a mobile-first UI.

## EDUCATION

---

**Elon University** | Elon, NC | Graduated May 2024

## CERTIFICATIONS

---

- Foundations of Cybersecurity - Google / Coursera, Mar 2025
- Play It Safe: Manage Security Risks - Google / Coursera, Apr 2025
- Excel Skills for Business: Essentials - Macquarie University / Coursera, Jan 2026
- Excel Skills for Business: Intermediate I - Macquarie University / Coursera, Feb 2026
- Excel Skills for Business: Intermediate II - Macquarie University / Coursera, Feb 2026

## ADDITIONAL

---

Languages: English (fluent), Spanish (fluent), French (proficient)

Strengths: Analytical thinking, technical communication, problem-solving, adaptability
